

L.T.C. PRE-CONFERENCE REGISTRATION FORM

Wednesday, March 22, 2016 - CAAD is offering two NIAAA Leadership Training Courses to assist athletic directors in their day to day responsibilities as well as for those seeking NIAAA Certification. They will be offered the day prior to the statewide conference at an additional fee. These two courses are being offered back to back so you can take two in one day if desired. The cost is \$120 each for CAAD members. The fee includes lunch but there is an optional dinner for LTC participants only at an additional fee.

LTC 617: 8:30AM-12:30PM (Instructor- Anne Macneil):

Athletic Administration: Administration of Interscholastic Sports Medicine Programs

This course examines the role of the athletic director and other school administrators in supporting and developing the interscholastic sports medicine program within a school or district. Coverage will include: (1) philosophy of sports medicine services; (2) roles and responsibilities of the Certified Athletic Trainer (A.T.C.); (3) roles of other members of the sports medicine team; (4) the high school sports medicine center – specifications and equipment; (5) helping parents, athletes and the general public understand the role of athletic trainers; (6) legal issues and risk management strategies; and (7) contemporary administrative issues and response strategies. A series of appendices will also be developed to provide athletic directors and athletic trainers with helpful information.

LTC 799: 1PM-5PM (Instructor- Trish Witkin):

Standards of Excellence in Interscholastic Athletic Programs - Leadership Training Course 799 has two purposes and potential benefits for high school athletics directors. For newly or recently appointed directors, the course provides an overview of 11 NIAAA Leadership Training Courses (LTCs) including key concepts, strategies and best practices. Whether working to improve a program or looking for long-range planning guidance, this overview of 11 NIAAA course components can be of value. At the close of each of the nine chapters contained in the course manual, other LTCs are cited wherein an athletic director can derive more detailed information on a particular topic addressed within each 799 chapter. For more experienced directors, the same planning and guidance benefits can be derived. However, an additional benefit and incentive can be realized by seeking NIAAA.

REGISTRATION MUST BE RECEIVED NO LATER THAN FEBRUARY 25, 2017
